REASONS FOR ALLOWANCE

1. Claims 1-3 have been cancelled. Claims 4-7 are pending.
2. Claims 4-7 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 4-7: Amano '159 teaches obtaining the average waveform per beat over a fixed interval of time, where each pulse waveform corresponds to one beat ((beat 1 + beat 2 + beat 3 + beat 4) / 4). Amano '837 teaches calculating the moving average of the slope of the waveform over a fixed time interval using overlapping data. However, neither of these patent nor the prior art of record teaches an averaging process unit that sequentially averages, without duplication, every predetermined number of signals from the sampling process unit $((Y_0 + Y_1) / 2, (Y_2 + Y_3) / 2, \text{ and so on})$ and sequentially outputs resultant signals at a second frequency which is lower than the first frequency (a process known as "modified moving average").

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
